Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Objection to drawings for not showing the all the embodiments or species that have been claimed were discussed. Examiner asserted that different embodiments or species that have been claimed must be shown in the drawings. Applicant indicated that 9 possible figures should be added to the drawings in order to show all the embodiments or the species in the application. Objection under 5 U.S.C. 132(a) to the amendment filed on 07/10/07 for adding new material, which is not supported by the specification, was discussed. Examiner asserted that the original disclosure does not teach the specific location, size, and length of the wire or line which is connected to the lever. In fact, the original disclosure does not teach how the lever 12 works.
